

Mission of School B: We aim to convey the love of Jesus, implementing holistic education to let students have even development in their moral, intellectual, physical, social, and aesthetics spheres, encouraging students to attend extra-curriculum activities to explore their potentials, providing a good learning environment for students, and nurturing students to be responsible citizens with critical minds.

Extracted from the Annual Report of School B 2003-2004 (available for public access on the Internet)

1. No. of Classes: 33
2. School Guidance in the Annual Report: Detailed description is included, especially about the PGE development and the reflections.

Extracted from the Annual Report of School B 2004-2007 (available for public access on the Internet)

Targets (2004-2007):

- Improve the pedagogy, behavior, conduct, courtesy, self-learning, and self-management skills of students.
- Develop the high-order thinking skills of students and build up the caring culture via MCE.

2:10-2:40			ECA /		
2:40-3:10	PGE/Tutorial	Tutorial	Library or Weekly Assembly	PGE/Tutorial	Tutorial

The annual reports of School B show equity and no bias for every department by letting each team have room in the report to describe their achievements, reflections, and future plans. Every year, the person in charge calls a meeting for all department heads to gather their reports for compilation. Though there are a lot of bright student performances, they do not put all that in the report, but frankly report what has been done in the whole school. There is a status and post for guidance.
